### EVALUATION SUBJECT:

### LAPLOCK™ PSU UNDERLAYMENT

#### 1.0 REPORT PURPOSE AND SCOPE

##### Purpose:

The purpose of this evaluation report supplement is to indicate that LapLock™ PSU Underlayment, recognized in ICC-ES master evaluation report ESR-4054, has also been evaluated for compliance with CBC Chapter 15 and CRC Chapter 9 of the code editions noted below.

##### Applicable code editions:

- 2016 *California Building Code* (CBC)
- 2016 *California Residential Code* (CRC)

#### 2.0 CONCLUSIONS

##### 2.1 CBC:

The LapLock™ PSU Underlayment, described in Sections 2.0 through 7.0 of the master evaluation report ESR-4054, complies with CBC Chapter 15, provided the design and installation are in accordance with the 2015 *International Building Code*® provisions noted in the master report and the additional requirements of CBC Chapter 15, as applicable.

The LapLock™ PSU Underlayment has not been evaluated under CBC Chapter 7A for use in the exterior design and construction of new buildings located in any Fire Hazard Severity Zone within State Responsibility Areas or any Wildland–Urban Interface Area.

##### 2.2 CRC:

The LapLock™ PSU Underlayment, described in Sections 2.0 through 7.0 of the master evaluation report ESR-4054, complies with CRC Chapter 9, provided the design and installation are in accordance with the 2015 *International Residential Code*® (IRC) provisions noted in the master report and the additional requirements of CRC Chapter 9, as applicable.

The LapLock™ PSU Underlayment has not been evaluated under CRC Section R337 for use in the exterior design and construction of new buildings located in any Fire Hazard Severity Zone within State Responsibility Areas or any Wildland–Urban Interface Area.

The products recognized in this supplement have not been evaluated for compliance with the *International Wildland–Urban Interface Code*®.

This supplement expires concurrently with the master report, issued July 2017.
